PROJECTS

PRAVAH - Data Driven Real-Time Delhi Flood Risk Monitoring & Management System

Jan 2026

Python, FastAPI, JavaScript, RestAPI, Leaflet.js, Pandas

[Github](#) | [Link](#)

- Built backend service using FastAPI to aggregate multiple data sources into unified risk model
- Processed rainfall and drainage datasets using Pandas for live severity classification
- Implemented map-based visualization using Leaflet.js with dynamic geo-layer updates
- Designed admin + public dashboards enabling authorities to identify high-risk zones in real time
- Received recognition from Mr. Pravesh Singh Verma (Water Minister, New Delhi)

GITMETRICS - Developer Analytics & GitHub Insights Platform

May 2026

React, Redux Toolkit, React Router, Axios, Recharts, Tailwind CSS, GitHub REST API, Vercel

[Github](#) | [Link](#)

- Developed a developer analytics platform to provide insights into GitHub profiles, repos, and coding activity.
- Integrated GitHub REST API using Axios to fetch and analyze repository statistics, language usage, stars, forks.
- Redux Toolkit to handle API responses, application & loading states, and data synchronization across multiple dashboards.
- Built responsive data visualizations using Recharts and deployed on Vercel with a modern React and Tailwind CSS.

CREDLYTIC - Blockchain Based Certificate Vault

Nov 2025

Python, Flask, Blockchain, Aptos Devnet, RestAPI, SMTP, NFT's

[Github](#) | [Link](#)

- Engineered backend issuance pipeline: authentication → NFT minting → PDF generation → email delivery
- Implemented tamper-proof certificate verification using on-chain transaction validation
- Integrated wallet signature authentication and role-based access (admin/student/employer)
- Built REST API for certificate lookup using email + transaction hash
- Secured the 4th position in a 150+ teams hackathon.

WORK EXPERIENCE

Entrepreneurship Development Cell

Indian Institute Of Technology Delhi

Campus Ambassador

Dec 2025 – Jan 2026

- Collaborated with EDC IIT Delhi for the biggest startup event in Asia - BeCon 2026.
- Assisted in more participation in this event from our college.

SKILLS

Languages: Python, JavaScript

Backend: FastAPI, Flask, Node.js, REST APIs

Web: HTML, CSS, Leaflet.js

Cybersecurity: Linux, Networking Fundamentals, OSINT Tools

Tools: Git, GitHub, CLI, Debugging

EDUCATION

K.R. MANGALAM UNIVERSITY

Gurgaon, India

Bachelor in Technology

Expected May 2029

Major in Computer Science; Specialization in Cyber Security

Semester 1 SGPA: 9.48

SRI CHAITANYA TECHNO SCHOOL

Gurgaon, India

PCM with Computer Science

CBSE Class XII – 88.44% | 2025
